During this quarter the aging network will celebrate Older American Month. This is a national observance held in the month of May each year. Governor John Bel Edwards has proclaimed May 2022 as Older American Month (OAM) in the State of Louisiana. The theme this year is “Age My Way.” Just as every person is unique, so too is how they age and how they choose to do it – and there is no “right” way. That’s why the theme for Older Americans Month (OAM) 2022 is “Age My Way.” The focus is on aging in place – how older adults can plan to stay in their homes and live independently in their communities for as long as possible. The 2022 theme is an opportunity for all of us to explore the many ways older adults can remain in and be involved with their communities.

While “Age My Way” will look different for each person, here are common things everyone can consider:

- **Planning:** Think about what you will need and want in the future from home and community-based services to community activities that interest you.
- **Engagement:** Remain involved and contribute to your community through work, volunteer, and/or civic participation opportunities.
- **Access:** Make home improvements and modifications, use assistive technologies, and customize supports to help you better age in place.
- **Connection:** Maintain social activities and relationships to combat social isolation and stay connected to your community.
Older American’s Month Continued...

Please reach out to the local Council on Aging (COA) if you would like to be a part of any of these activities. There is a COA in each of the 64 parishes.

This year, the Governor’s Office of Elderly Affairs, is excited to celebrate OAM with our partners in the aging community. Follow along throughout the month of May 2022, to find resources on aging in place from your local Council on Aging, Area Agency on Aging, Senior Center and Aging and Disability Resource Center. For more information, visit the official OAM website, follow ACL on Twitter and Facebook, and join the conversation using #OlderAmericansMonth.

Are You Prepared for Hurricane Season?

Hurricane season runs from June 1st to November 30th, however, these storms can develop before or after the season. Hurricanes are dangerous and can cause major damage from storm surge, wind damage, rip currents and flooding. They can happen along any U.S. coast or in any territory in the Atlantic or Pacific oceans. Louisiana is particularly vulnerable. Storm surge historically is the leading cause of hurricane-related deaths in the United States. Make preparations and stay informed. For tips on getting prepared you can visit:
