

## Disaster Recovery Centers

---

Specialists from the state of Louisiana, the Federal Emergency Management Agency (FEMA) and the U.S. Small Business Administration (SBA) will be on hand to answer questions and provide information on the types of assistance available to survivors.

“The recovery centers serve as a one-stop shop for folks who need one-on-one assistance,” said Federal Coordinating Officer Gerard M. Stolar. “The state and federal professionals are there to help eligible survivors get help as quickly as possible.”

Disaster recovery officials work closely with community leaders to find a location that provides safe and easy access for all survivors. More recovery centers will open as sites are identified and approved.

Visiting with a recovery specialist is not a requirement for survivors who want disaster assistance, but the centers are an excellent way for people to get answers to their questions about disaster aid and help applying for it.
